Breakout 1 12:00- 13:00	60 min	Certification: European Union Micro-credential for Learning - VIEWS 101185128 VIEWS – Volunteering for Inclusion and Empowerment with Sports is an Erasmus+ Sport project that creates meaningful and accessible volunteering opportunities for people with disabilities. ► This interactive course helps sports organisations remove physical, communication, organisational and attitudinal barriers. It supports disabled people to participate as valued volunteers, coaches, mentors, officials, event organisers and leaders; not merely as athletes or symbolic participants. Its central principles are accessibility, personal choice, appropriate support, empowerment and meaningful contribution. Volunteers should work alongside everyone else within the same organisation, receiving reasonable adjustments and mentoring where needed.	Giada Franzolini BSc and Adam Sweeney MSc	► Practical workshop with European cross-border credential matched to the EU knowledge, competence and skills for work framework	► VIEWS – Volunteering for Inclusion and Empowerment with Sports - Practical	Space, chairs and tables, Flipchart, thick felt tip pens
Breakout 2 12:15 - 13:00	60 min	Certification: European Union Micro-credential for Learning Certification - Part 1: Inclusion Workshop - SPACED and Participation Pathways This practical course is SPACED, an inclusive coaching methodology that helps coaches identify and remove barriers across six areas: Setting, People, Actions, Communication, Equipment and Design. Instead of viewing the participant as the problem, coaches modify these areas so everyone can participate, learn and belong within the same session. ► The central principle is simultaneous inclusion: everyone participates together, doing the same activity, with purposeful modifications that provide appropriate challenge without singling anyone out.	Ray Sweeney FRSA, Dip Bus Leadership	► Practical workshop with European cross border credential matched to the EU knowledge, competence and skills for work framework	► SPACED and Participation Pathways	Projector, Space, chairs and tables, Flipchart, 50 sheets flipchart paper, thick felt tip pens, cardboard boxes of all sizes and shapes, balls of all sizes, textures, colours, shapes and types, Football cones 50 pieces must include yellow, red and green, football domes (markers), punch mitts and pads, coloured wrist bands, 50 x blue, 50 x red. Large clock.

13:00 - 13:50	50 min	Lunch & Coffee break German culture - food, music, networking				
Breakout 3 13:50- 14:50	60 min	Certification: European Union Micro-credential for Learning - Part 2 Inclusion Workshop - SPACED and Participation Pathways In this practical course, SPACED and Participation Pathways help coaches include people with different needs and abilities in the same activity, at the same time and in the same place. The course teaches coaches how to blend four approaches: Universal, Adapted, Progression and Focused practice. These are not separate groups or ability tracks; they provide different routes into the same shared activity, with any individual practice acting as a short bridge back into the group.	Ray Sweeney FRSA, Dip Bus Leadership	Practical workshop with European cross-border credential matched to the EU knowledge, competence and skills for work framework	SPACED and Participation Pathways	Projector, Space, chairs and tables, Flipchart, 50 sheets flipchart paper, thick felt tip pens, cardboard boxes of all sizes and shapes, balls of all sizes, textures, colours, shapes and types, Football cones 50 pieces must include yellow, red and green, football domes (markers), punch mitts and pads, coloured wrist bands, 50 x blue, 50 x red. Breakout 4 13:50- 14:50	60 min	Certification: European Union Micro-credential for Learning Certification - Green Dojos 101241439 is an Erasmus+ Sport project promoting healthy and active ageing among adults aged 55+, particularly inactive people and those facing disability, financial, geographical or social barriers. In this practical course, coaches will learn how to deliver safe, inclusive and non-competitive martial-arts-inspired activities, such as Tai Chi, Aikido, Kata, Poomsae, Forms, Senemen Tua, Qigong, balance, mobility and mindful movement in accessible outdoor spaces including parks, beaches and riversides. Government and sports councils support the sessions combining physical and mental well-being, social connection and environmental responsibility, for example through caring for and cleaning local green spaces. The overall aim is to create welcoming outdoor "dojos" that improve health, reduce isolation and strengthen participants' connection with their community and nature.
